

DANIEL REIFER

FULL STACK DEVELOPER | INFORMATION SCIENCE STUDENT

058-4341233 | daniel.reiwork@gmail.com | [Linkedin](#) | [GitHub](#)

SUMMARY

Motivated Information Science student (Bar-Ilan University) and Full Stack Developer with practical experience in building scalable web applications. Former Network Manager in the IDF (Mamram & Armored Corps), possessing strong problem-solving skills and ability to work under pressure. Skilled in MERN stack, Python, and C#. Seeking a student position (available for 3 shifts/week).

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, C#, SQL, HTML5, CSS3.
- **Frontend:** React.js, Material UI, Bootstrap, Sass, Vite.
- **Backend:** Node.js, Express.js.
- **Databases:** MongoDB, MySQL.
- **Tools:** Git, GitHub, Postman, JWT, REST APIs.

PROJECTS

Business Card Platform | *React.js, Node.js, MongoDB, Material UI*

- **Architected** a full-stack platform for business presence management, supporting diverse user roles and secure access.
- **Developed** robust RESTful APIs with **Node.js & Express**, supporting complex CRUD operations and **Joi** validation.
- **Implemented** dynamic **Dark/Light mode** and secure authentication using **JWT** for data privacy.

Personal Portfolio | *HTML5, Sass, JavaScript, Bootstrap*

- **Designed** and developed a responsive personal website to showcase technical projects, optimizing frontend performance.
- **Implemented** interactive UI components and DOM manipulations using vanilla JavaScript.
- **Integrated** external REST APIs to display dynamic content and enhance user engagement.

EDUCATION

Bar-Ilan University | 2024 – 2027 (Expected) **B.A. in Information Science**

- Relevant Coursework: Database Management, Programming principles.

HackerU Academy | 2024 **Full Stack Development Bootcamp (535 hours)**

- Intensive training focusing on MERN stack, OOP, and server-side architecture.

MILITARY SERVICE

IDF – Mamram Unit | 2022 – 2024 **NOC Agent**

- Managed and monitored large-scale military networks, ensuring high availability and operational continuity.
- Resolved complex network alerts and incidents in a high-pressure, 24/7 mission-critical environment.

IDF – Armored Corps | 2020 – 2022 **Network Manager**

- Managed unit-wide IT infrastructure, troubleshooting hardware/software issues under strict operational deadlines.
- Provided end-to-end technical support for command centers and communication systems.
